

BLACKBERRIES

YEAR ROUND SUPPLY!!

We grow several varieties of plump blackberries in both Oregon and Mexico, providing a year-round supply.

With its fertile, well-drained soil, spring rain and warm summer days with cool evenings, Oregon's Willamette Valley is known for its extraordinary blackberries. Hurst's blackberries are sold in 4.4 oz, 6oz, 12oz, and 18oz. clamshell containers. The clear clamshell design protects the berries and allows you to see the fruit easily.

Available: January through December (Year Round!!)
